SQL, Azure, Git

// LANGUAGES

- Swedish (Native)
- English (Fluent)
- Italian (Fluent)

// CERTIFICATIONS

AZ-900 Azure Fundamentals - Microsoft Certified (2026)

References available upon request.

// PROFILE

My ambition is to write future-proof code. I am driven by creating solutions that are well-architected, sustainable, and above all, useful. In short: junior in the role, but with a mature focus on delivering business value.

// PROJECTS

All projects, including source code, demos, and technical documentation, are collected in my digital portfolio:

// EDUCATION

.NET Developer with AI

2025 - 2027

Edugrade (LIA Internship Nov 2026 - April 2027)

Two-year Higher Vocational Education focused on modern full-stack development in .NET and C#. The curriculum covers the entire lifecycle, from database design and backend architecture to frontend and Azure AI services. Blends deep theoretical study of design patterns with agile methodologies and a 22-week internship (LIA).

Bachelor's Degree in Political Science

2022 - 2025

Mid Sweden University

Focused on governance and decision-making processes from ideation to implementation. This education trained me to analyze complex systems and use statistics to find patterns in large datasets. I bring a scientific approach to problem-solving and the ability to quickly master new domains.

// EXPERIENCE

Mail Carrier (Summer)

2024, 2025

PostNord

Summer substitute responsible for distribution in Ljusdal (2024) and Hudiksvall (2025). Managed logistics independently in a high-paced environment with strict deadlines.

Creator & Editor

2021 - 2022

Top of Heart AB

Overall responsibility for video production, from recording to final delivery. Managed the entire chain of filming, editing, and exporting against tight timeframes and high quality standards.

Co-founder & Creative Manager

2019 - 2022

Toginta Productions

Founded and ran a media production company with responsibility for the entire supply chain. The role required prioritizing under pressure and translating client visions into concrete deadlines. This experience gave me a highly pragmatic view of business value and the importance of structure in creative processes.
